Camilo Restrepo
Front-end Developer

My name is Camilo Restrepo and I am a Front-End Developer and UX/UI Designer with more than 2 years of experience. I have worked on various projects ranging from designing and developing custom websites to maintaining and updating existing sites. My skill set includes modern front-end technologies like React, Angular, HTML, CSS, JavaScript, Figma design skills as well as working with agile methodologies such as Lean and Design Thinking. I am known for my ability to work well in teams and my focus on user-friendly and visually appealing design. My portfolio shows my experience and quality in web development and web design. I am dedicated to learning, continue to grow in my career, and am excited to apply my skills to challenging new projects.
